

Submittal Package Tutorial

Greenstreak has created a unique tool for you to quickly view or email submittal package documents on line. Typical documents found in the **Submittal Package** include:

- Brochures
- Design Guides
- Specifications
- Installation Guides
- Material Safety Data Sheets
- CAD drawings

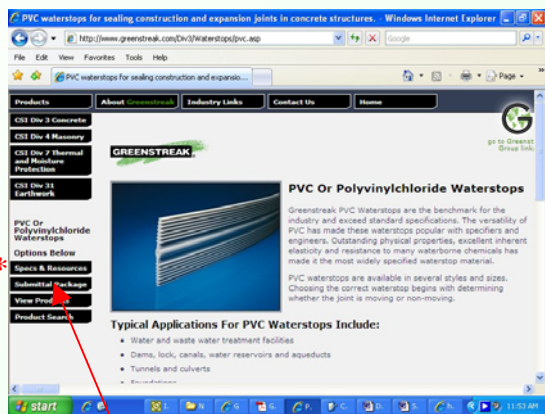

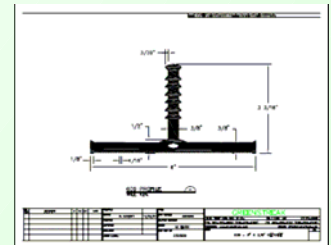

Brochures

Installation Guides

CAD Drawings (.dwg and .pdf)

The **Submittal Package** link is found throughout the site in the navigation buttons located on the lower left hand side of the pages (*see note about **Specs & Resources** button). This link takes you to a selection page for the all product categories where one or more products can be selected. Once the product or products have been selected, click the button located at the bottom of the page to **Continue to Select Documents**.

*The **Specs & Resources** button is found on specific product pages. This link opens a page where you can view and print submittal information for the product specific to the page you are viewing. For instance, if you are viewing PVC Waterstop products, the Specs & Resources link will display only information for PVC Waterstop. If you wish to download or email documents you will want to use the **Submittal Package** tool.
